Work Experience

[Alpha Electronics](#) - Frontend Developer

Oct 2024 - May 2025

Developed and maintained the company's official website and CRM panel, enhancing operational efficiency and user experience.

Collaborated with a cross-functional team to develop a proprietary desktop application, contributing to the architecture and implementation of core features.

[Simplex ITC](#) - Frontend Developer

Jan 2026 - Present

Developed and maintained official websites for government agencies, ensuring high accessibility and compliance with state digital standards.

Implemented complex modules, including secure E-imzo (digital signature) integration, utilizing Vue 3, TypeScript, and Ant Design.

Collaborated with a cross-functional team to deliver scalable and secure web solutions for public sector clients.

Projects

[ConnectMobile \(E-commerce Platform\)](#) | Software Developer

April 2026 - Present

Architected a full-stack e-commerce ecosystem including mobile apps, Admin, and Courier management panels.

Implemented backend infrastructure for real-time order tracking and logistics integration (Uzpost, BTS).

Integrated Click payment gateway to enable secure and seamless online transactions for users.

Built cross-platform mobile apps using Capacitor for seamless Android and iOS performance.

Developed centralized dashboards for efficient store operations and real-time delivery management.

[Atom-ui-vue | Open Source UI Library](#)

[Github](#)

Developed a reusable, high-performance UI component library for Vue 3 and typescript environments.

Designed a consistent design system with highly customizable components, enhancing development speed and UI consistency across multiple projects.

Implemented automated build processes and documentation, ensuring ease of use and maintainability for developers.

Skills

Languages JavaScript, TypeScript

Backend Node.js Express.js Fastify.js, Nest.js, BullMQ, TypeORM, Mongoose, Grammy.js

Frontend HTML5, CSS3, Tailwind, SASS, Vue.js, Nuxt.js, Element-ui, Ant-Design, Pinia, Vue-i18n,

Axios, TanstackQuery, Electron.js, Capacitor

Databases MongoDB, PostgreSQL, Redis

Infrastructure NGINX (Rate Limiting, Security), Linux (Ubuntu), SSH, CI/CD,

Tools & AI VS Code, Git, Github, Gitlab, Claude Code, Codex,

Education

Najot Ta'lim (Bootcamp foundation C, Python Mysql)

Dec 2022 - May 2023

Programming Foundations / Computer Science Fundamentals.

Algorithms & problem solving (basic complexity, arrays/strings, recursion, sorting/searching)

Najot Ta'lim (Full-Stack Web Development Bootcamp)

Jun 2024 - Aug 2024

Intensive training in modern web technologies, focusing on building scalable full-stack applications.

Node.js, Vue 3 (Composition/Option API), TypeScript, Nest.js, PostgreSQL/MongoDB, and RESTful APIs.

Acquired deep knowledge of software architecture, state management (Pinia/Vuex), and efficient database design.

Languages

Uzbek - native

English - pre-Intermediate

Russian - working proficiency (reading technical documentation)
